European News. The war situation of Prussia and France remains unchanged. There are movements of the armies and a concentration of more Prussian troops about Paris. The condition of the Parisians is sometimes reported as being desperate for lack of provisions to hold out many days; and then again statements are made that they have enough for several months' consumption. The reports of deficiency are most probably true -Metz was said by the French outside to be well supplied the day before the surrender No reliance can be placed, therefore, on the French accounts of Paris, as the motive is too strong to keep up the hopes of the naconcur in the opinion that Paris must surrender in a short time.

The Russian question it is thought now will be peaceably settled. Russia will occupy the Black Sea, and before long carry out her designs of protecting the Eastern Christians against the oppressions of the Turks. Great Britain is simply contending for her commercial interests in resisting the encroachments of Russia on Turkey; but the time must come, and we hope it is very near, when the Ottoman power must fall : and then, and only then, will the East revive in prosperity. The decline of the power of the religion of Manomer and of the Papacy seems destined to be cotemporane ous. Both bave tyrannized over the earth enough already. a profound commotion on Thursday last, bout 9 o'clock, at the death of Auerin B Tickers, Eq , Sheriff of this County. Mr. Vickens, preparatory to the execu

ion to take place next day, was putting his pistol, together with that of his Deputy, in order; and whilst making some repairs upon one of them, it is supposed one of the chambers was discharged. The ball entered just behind the right ear, ranging across the head, lodging just under the skin above the left. When the accident oc curred, he was sitting by the fire side, at nis residence, with no one in the room, the nearest person being his mother, who was n an adjoining apartment. The latter, hearing the report, rushed to him, and found him nearly dead, as the result was almost instantaneous; never speaking after-

A jory of inquest was immediately im pannelled, composed of some of our mos intelligent citizens, Gen. W. K. EASLEY fore man, who, after hours of careful investigation and listening to the evidence, and examination of the circumstances, rendered a verdict of accidental death.

Mr. Vickers was an upright and correct man, and was very popular, a native of the County, and gave promise of future usefulness. The funeral took place on Saturday at the Methodist Church, attended by the Palmetto Fire Company, of which he was a member, besides a large assembly of others. He was about 32 years of age, and leaves an aged mother to mourn his death.

Since this sad circumstance, it has been current in different parts of the County, that Mr. V., for reasons assigned, committed suicide. But all reports of this characters we are requested to say, are utterly without foundation ; and W. T. Shumare, Esq., who knew him most intimately and well, will next week publish a card refuting the reports alluded to, embracing also a substantial abstract of the testimony before the jury of inquest.

Execution.

Stone & Murray's Circus.

Our citizens residing in the City are al ready informed, by the large bills of Messrs. STONE & MURRAY, that their Circus will visit Greenville on Monday next, 5th prox .-By reading our advertisements, they will learn fuller particulars. This Circus is an sideration wherever he went, old and popular one, and, judging from the number and quality of their newspaper no tices received by them, must be a good one besides. We extract one as a specimen, from the New York Herald:

"Stone & Murray have been for several years past the first to introduce to the publie, Artists who have proved unriva led in their specialties, and they deem no expense too great in securing talent that will maintain the supremacy of their Circus. There fore they take great pride in offering to their patrons this season an opportunity to witness the feats of the grandest array of Equestrians, Gymnasts, Acrobats, and other performers, ever assembled in one com-

It is the organ of the Independent Order of Good Templers, of the State of Georgia, and is conducted with much care; its editorials and selections are in keeping with the aim and object of the paper. Of course everybody wishes the Temperance Cause all success. From it we learn that temperance organizations are springing up numerously all over Georgia, and much good is being done. We wish this good cause thousands upon thousands of devoted followers, not only in our sister State, but throughout the world.

The Sheriffalty.

The Sheriff's office of this County being vacant, HENRY M. SMILH, Esq., Coroner, has by virtue of his office, assumed the duties should not be divided. The Legislature met Tuesday, 22d legt-The two Houses were organized by the election of F. J. Moszs as Speaker of the House, without opposition, and by the election of C. W. MONTGOMERY, Senator from Newberry, as President pro tem, of the Senate, in place of D. T. Connin, who preeided over it during the last Legislature .-The Legislature adjourned over from Thurs day till Monday, when the insuguration of Gov. Scorr was to take place. On Tuesday the election of United States Senator was to be gone into. We shall not learn the result in time for our present issue. T. J Robenteon, present incumbent, and Carpo zo are the most prominent candidates, with chances, it is said, in favor of Robertson,

A correspondent of the Charles on Courier of the 24th inst., gives the following interesting particulars of the first movements in the Legislature:

" Considerable rivalry and jealousy seem to exist among the members of the House, as to whom the leadership shall be accredited, now that the foreible Elliot and fiery DeLarge have been attracted to higher fields of usefulness in the United States Congress. Their distinguished compeer, W. J. Whipper, led off in a virulent harangue on Tuesday, when the House had resolved itself into a Committee of the Whole, upon his motion, to consider the State of the country, meaning Laurens County. He ad dressed himself to the passions and prejudices of his race, and depicted in glowing, though false colors, the almost irremediable outrages, oppressions and grievances, to which he alleged they had been subjected. Joe Crews was called upon to give his experience, and in pathetic tones he recited he history of his trials and his wrongs.

"The House-at least the Republican nembers of it-were not a little excited and incenced at the dreadful state of affairs portrayed, and when Col. Warren Wilkes. conservative or independent member from Anderson, rose to reply, his voice was drowned at first by the clatter and confusion that was made. But he finally stood his ground and despite the adverse rulings of the speaker and the noise and hubbuh of wrathy members, succeeded in effecting hearing, and soon commanded the most respectful attention. He is a most pleming speaker, fluent and earnest, and will doubtess prove a highly valuable addition to the conservative element in the Legislature .-He and Whipper crossed swords again yes terday in a discussion concerning the man agement and condition of the Blue Ridge Rail Road, which Whipper denounced in very plain and strong terms, and which Wilkes defended in an equally earnest manner. It is asserted by the friends and parties interested in the welfare of the road that a clique design levying a species of black mail, which the managers are determined to resist, and even to sell the road to certain moneyed parties rather than be torce ! to expend any great amount to prevent unfavorable or purchase desirable legislation.-Active electioneering, caucusing, button holing, treating, &c., by the respective aspirants for the different offices to be filled, has engrossed the most of the time of both Houses so far.

" For Associate Justice of the Supreme Bench, Judge Wright, the present incumbent W. J. Whipper, D. T. Corbin and Judge Green, of Sumte-, are entered .-Judge Wright will probably come in first, though it is also said that Judge Green stands a fair chace.

Ministerial.

We unintentionally failed to mention last week two matters we intended noticing .-The first was, that our distinguished fellow citizen, Dr. E. T. Bust, who has recently been on an extended trip to the West, as our readers are aware, he having corre sponded with this paper while away, had returned. Our citizens in general were glad to welcome him back. He is very much pleased with what he saw and experienced during his visit; but thinks the up per part of South Carolina better than any section he visited. He is a native of Greenville, educated at the South Carolina College, and supplies a church at Cheraw, in this State, He is regarded as a young minister of much promise, taking a foremost stand in his Presbytery. The sermon delivered by him here is very highly spoken of for learning and eloquence.

We like to see persons residing at a die tance, natives of our place, return, to see those among whom they were raised. It indicates that they have not forgotten our people.

Departure of Rev. W. H. Campbell, for

Winnsboro. The above gentleman occupied the Episco pal pulpit on Sunday, 20th inst., when he delivered an excellent and impressive sermon, delighting his audience with his style, manner and matter. Having been called to supply the Church at Winnsboro in this State, he left for that place on Friday last, intending to preach there for the first time Sunday morning, 27:h. We wish for him abundant distinction and success in the calling when which he has recently entered. He will not for the present remove his family thither.

For several days we have been favored with the clear, delightful kind of mild weather which prevailed during the early part of November, which makes it still favorable for gathering crops and sowing

The Legislature.

We have been promised a weekly letter for our readers, from Columbia, during the session of the Legislature, giving account of matters and things in general at the State capital, and of the proceedings of the Legislature in parTo those Indebted.

Next Minday is Salesday for December and we would urge every one of our patrons indebted to this office, to come to town pre. cies, also paying in advance for the coming year. If you owe but fifty cents, pay it, we do not despise small amounts; on the contrary, they constitute a large part of our business. We have waited long, so come and pay.

Meeting of the Literary Club,

The above Club met on Friday night 25th, at the residence of Mrs F. P. BEATTIE. There was not a large number present, enough, however, to transact business --AMES BIRNIE, Esq , the President, was in the chair, and WM. BEATTIE, Esq., was requested to set as Secretary, the regular officer being absent. The Treasurer made an informal report representing some forty odd dollars in the treasury unexpended .-The list of names was read over, and those present desiring to continue as members for the ensuing year responded. The elec tion of officers for the next year took placewith the following result :

President-Gen. ELLISON CAPERS. Vice President-T. Q. Donathson, Esq. Secretary-Mr. D. T. SMITH.

Treasurer-Julius C. Smirn, E-q., re elected. There was no essay read, in consequence

of the absence of the gentleman appointed for that purpose. The Club will hereafter meet on the third Tuesday night in each month, instead

of the third ?riday. The house of Dr. J. P. Boyce was selected as the place of next monthly meeting. Those wishing to continue their member hip, will please notify the Treasurer; and

the members who have kept out books ver time, are requested to return them, so Hoge from Tennesses.

Two droves of Tennessee Hogs have eached this place, within the past few lays. Their appearance is very good, varying in rize; many would weigh, no doubt, from two to four hundred pounds apiece. Ten cents per pound gross, is the price asked; but as money is at this time extremely scarce and hard to get, and still harder to keep, we hope that subsequent rovers will be at le to sell a trifle lower. Messia Milla McBuaten & McBur, who have formaly supplied a good many of our eitiz-ns with pork, will, they inform us, have a drove about the 16th proximo. So let all all lovers of sausages, spare ribs and back bones prepare, for the season of those things will soon be with us.

Bemains Unchanged.

The subscription per year for the Enterprise is still Two Dollars, which is cheap enough; at any rate, no intelligent man is debarred taking the paper on account of its high price. The sum is a small one, and we wish every man in Greenville County without exception would secure it for 1871.

We will send the paper from now to the first of January, 1872,

Congress-The Forthcoming Message.

Next Monday Congress will meet. The Message of President Grant will be looked for ith great interest. It is rue President intends to recommend a general re dislike the presence of United States selmoval of disabilities and the odious retrospecdiers, but will even welcome them and able act of his administration, and tend more than any thing else to restore peace and good armed maranders calling themselves feeling throughout the country. The condition of European affairs, and the relations of the United States with foreign powers, we -presume, will occupy much of the President's attention. If the President will recommend a reduction of taxes, and not urge the speedy payment of the public debt, he may aid in ducing this Congress to afford great relief to the present generation. The debt can well stand longer, and be paid by the gradual growth of the resources of the country. It is known that many leading Republicans favor this idea, and it is already sgitated, in the West, especially

Thanksgiving Day. Thursday last, the day appointed fo Thanksgiving, by Gov. Scott, was observed more or less generally in Greenville. Some of our large concerns were closed up, and there were religious services in the Episcos pal and Presbyterian Churches at 11 o'clock.

Newly Elected Officers.

Persons who were elected to office at the recent election in this State are informed that they have but thirty days from November 8, the date of the declaration of the same, in which to qualify.

We call special attention to this matter, knowing that some of our new officers have not yet qualified.

Another Fatal Accident.

We learn that a freight trein over the Greenville and Columbia Railroad, met with a serious secident, on Sunday last, near Ninety Six. The rails spread and up-

set the locomotive, R. Pearson, a colored

fireman-who had been employed on the road since its inauguration-was instantly killed; Jack Germany, the engineer, was seriously injured. Arrates in Laurens are in a terrible con dition. It is stated that the military-num

bering about 1,000-are quartered in the District, and a number of the most prominent citizens have been arrested, among them the Sheviff, and Mesers. Todd, Mosely and Garlington, Writs of habeas corpus were issued for the release of the prisoners but no attention was paid to them.

THE SCHIER BITTERS TRIUMPHANT,-This popular and widely known Southern tonic. at the recent Pair of the South Carolina Institute, was awarded a Silver Medal. It has a great reputation, and is highly effica-cious in Dyspepsia, Chills and Fever, Chol-era Morbus, Diarrhosa, general debility, and kindred ills. No one who has used this tonic fails to commend it highly. Its pro-prietors are Messrs. Dowle, Moise & Davis, corner of Meeting and Hasei streets.

A Body and Mind Disease.

" " Crushed,.

Such is dyspepsia. The stomach and the brain are too intimately allied for the one to suffer without the other, so that dyspepsia and despondency are inseparable. It may be added, too, that irritation of the stomach almost invariably accompanied by irritation of the temperature of the temperatu

added, too, that irritation of the stomach is almost invariably accompanied by irritation of the temper.

The invigorating and tranquilizing operation of HOSTETTER'S BITTERS is most powerfully developed in cases of indigestion. The first effect of this agreeable tonic is comforting and encouraging. A mild glow pervades the system, the chronic uneasiness in the region of the stomach is lessened, and the nervous rertlessness which characterizes the disease is abated. This improvement is not transient. It is not succeeded by the return of the old symptoms with superadded force, as is always the case when unmedicated stimulants are given for the complaint. Each dose seems to impart a permanent accession of healthful invigoration. But this is not all. The aperient and antibilious properties of the preparation are scarcely secondary in importance to its tonic virtues. If there is an overflow of bile, the secretion is soon brought within proper limits, and if the bileary organ is inert and torpid it is toned and regulated. The effect upon the discharging organs is equally salutary, and in cases of constipation the cathartic action is just sufficient to produce the desired result gradually and without pain. The Bitters also promote healthy evaporation from the surface which is particularly desirable at this season when sudden spellthe raw, unpleasant weather are apt to check of natural perspiration and produce congestion of the liver, coughs, and colds. The best sufeguard against all diseases is bodily vigor, and this the great Vegetable Restorative essentially promotes.
